About Unearth the World

Unearth the World (UTW) is a social enterprise that facilitates meaningful volunteer abroad programs for professionals and students. UTW pairs travelers with vetted international nonprofit partners to solve real issues in global communities, while striving to make the volunteer travel industry more transparent and inspire people to volunteer in their own communities. Since 2014, almost 300 inspired travelers have dedicated over 4,000 hours of their time to help serve projects around the world.

About the program

Join Unearth the World & Guatemalan nonprofit De la Gente (DLG) to learn about coffee farming communities and help build economic opportunity that improves the quality of life for farmers, their families, and communities. Over eight days, Cornell Alums will play an integral role in contributing to DLG's mission while experiencing Guatemala at its best!

About De La Gente

De la Gente has three pillars: Coffee Commercialization, Cooperative Assistance and Community Tourism. DLG envisions a coffee industry that is equitable and inclusive; that enables small-holder farmers to earn a dignified income and live prosperous lives, that facilitates authentic relationships between coffee producers and coffee buyers, and that meets economic, social and environmental needs of everyone involved.

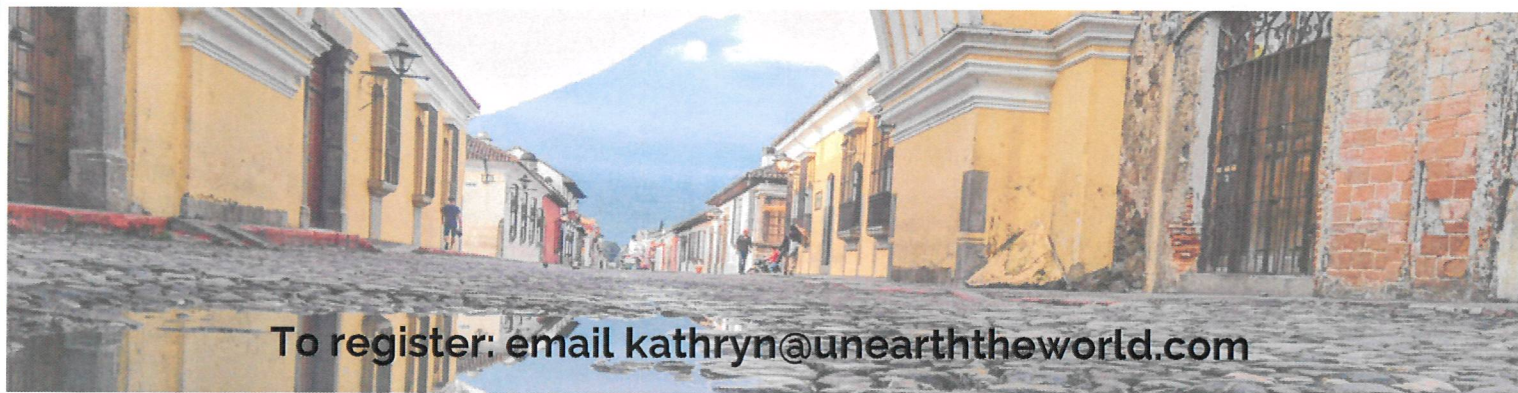

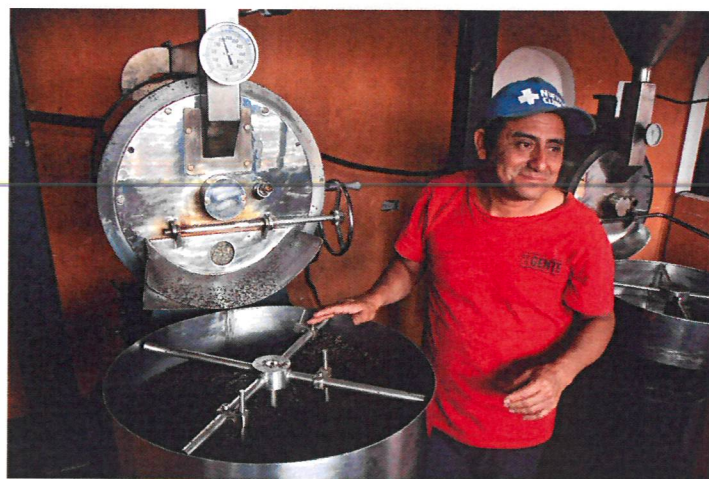

Community project

For two days, participants will work on a community construction project. This project is chosen by De la Gente as something that is necessary and wanted by the local community. Unearth the World defers to its partners at De la Gente to design and guide this community project.

Coffee industry education

During the trip, participants will also dive into the coffee industry through intentional cultural exchanges with local coffee farmers and the Executive Director of DLG, as well as activities on coffee roasting, brewing, cupping, and on the global coffee trade.
